HELPED BY TANLAC

New Remedy Did Wonders for Wheeling Man Who Gladly Endorses It in Story Below.

TELLS WHAT DID IT

"I read of so many people getting results from this new medicine Tanlac I decided to give a trial myself as I was then suffering from complaints almost identical to some of those whose names have been published and I now gladly join the bunch in praising Tanlac" said John T. Rehms, popular livery and boarding stable proprietor, 927 Market street, Wheeling,

"I suffered from stomach trouble, indigestion and my stomach always felt sore after eating and my throat seemed sore and raw all the way down and consequently I had to be con-tinually passing up some of my favor-ite dishes. I had been told by good authorities that I had ulcerated stomach but now though I've only taken one bottle of Tanlac the relief I have secured has been simply wonderful gentlemen. My stomach doesn't feel sore, and I enjoy a good appetite, not dreading at all anymore the pains and full feeling which I once experienced. In fact I can eat just exactly what I want without after effects and know for myself what a wonderful remedy this new medicine Tanlac is and I rec-ommend it highly, as too much cannot

Tribute is Paid.

Mr. Rockefeller paid tribute to the success of the Young Men's Christian Association in having "done more throughout the civilized world than any other single force in helping to bring about co-operation between Christian men of different denominations." Of the Wabash-Pittsburg Terminal Railroad Will Be Ordered by the Court.

PITTSBURG, May 15.—Attorneys for the Bankers Trust Company, of New York, trustees for the first mortgage bondhoiders of the Wabash-Pittsburg Terminal railroad today appeared before Judge Orr in the federal district court and asked that the property be sold so that it could be reorganized as soon as possible.

Judge Orr granted the request saying the master would be instructed to sell the road in the "immediate future." He also agreed to the request that the upset price be reduced from the figure previously set by the court the figure previously set by the court and said the amount would be named later. A request that the financial re-sponsibility of bidders be increased was taken under advisement.

title for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little clive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expanse of the teeth' Calomel sometimes plays haveo with the sums. Be do strong liquids.

It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Most headaches. "dullness" and that laxy feeling come from constitution and a disordered liver. To be more than a mere "scrap of paper," a guarantee must be absoluteand backed by a concern able and willing to make it good.

The General's guarantee is not only absolute; it is backed by a business operating the world's largest roofing mills, and making one-third of all the roll roofing made in America. That's the guarantee behind

Certain-teed

The guarantee is for 5, 10 or 15 years, according to ply (1, 2 or 3). There is no evasion about it—no attempt to substitute a highsounding something "just as good." There is no substitute for a real guarantee. You get an absolute guarantee on CERTAIN-TEED because the General knows that no better roofing can be made. Its raw materials and method of manufacture are both certified by the General's board of graduate chemists, and he knows he's taking no chance in guaranteeing them to you. That's what "CERTAIN-TEED" means—certified and guaranteed. Experience has proven that the guarantee is conservative, and that CER-TAIN-TEED will outlast the period of guar-

The roofing felt, as it comes bone dry from the rollers, is given a thorough saturation of a special blend of soft asphalts, the formula of the General's board of expert chemists. It is then given a harder coating of another blend of asphalts. This keeps the inner saturation soft, and prevents the drying-out process so destructive to ordinary roofing. Roofing is impervious to the elements only so long as the asphalt saturation lasts. CER-TAIN-TEED retains its soft saturation, and is in good condition for years after the harder, drier kinds have become useless.

CERTAIN-TEED is made in rolls; also in slate-covered shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or outbuilding.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type

STUPID CHILDREN CLOGS IN SOCIETY

for Feeble-Minded.

INDIANAPOLIS, May 15—One of the principal papers read at the Na-tion Conference of Charities and Cor-rection was "Danger of Classifying as Merely Backward Children Who Are Feeble-Minded," by Dr. G. S. Bliss, superintendent of the Indiana School for Feeble-Minded Youth, at Fort Wayne, Ind.

Dr. Bliss described stupid children, who have, with charitable good will, been so often supposed to be able to take care of themselves but who are really likely to commit grave crimes, the doctor called such chilcrimes, the doctor called such children "mis-fits" and "clogs in the machinery of social adjustment," and said that the sooner they were dis-
